

MOBILEDATA

What Is It?

INTERMOBILE LE™ is EmergiTech's mobile data solution. Utilizing this software can enable emergency response personnel to arrive on scene more informed and better prepared.

What Does it Do?

INTERMOBILE LE™ provides emergency response personnel with vital information before they arrive on the scene. Responders can access previous location history, local alerts and search state and local criminal databases for the most up-to-date information. Optional integration with mobile mapping and AVL can provide users with the quickest route to a call.

How Can It Help Me?

INTERMOBILE LE™ is a vital addition to an officer's arsenal of tools. Being able to access motor vehicle, criminal and dispatch records from the field will help keep them safe by allowing for:

- Full "silent" dispatching, including unit status updates
- Transmission of warrant alerts and dispatcher comments to the field
- Review of Hazards and Premises information before arriving on scene
- Access full access to Master Name Files
- Platform stability through Microsoft Windows®
